Graduate of Information Technology from Brawijaya University. Possesses strong expertise in web development using PHP (Laravel/CodeIgniter) and JavaScript (React). Experienced in MySQL database management as well as the preparation of technical documentation such as SDDs and BRDs. Has a track record of internships across various industries that have honed my team collaboration and efficient problem-solving skills. Ready to contribute professionally to an IT team.

EXPERIENCE

Full-Stack Developer Intern **December 2025 – Recent**
Internship, PT. Dwitunggal Jaya Pratama Maju

- Rebuilt the company's main website and CMS system using Laravel and React to improve operational efficiency and UI interactivity.
- Developed an e-commerce application integrated with a payment gateway to digitize and accelerate transaction processes.

System Analyst Intern **September – December 2024**
Internship, PT. Bina Pertiwi

- Developed the ESS 2.0 system to streamline administrative processes and improve digital accessibility to Human Capital (HC) services.
- Designing the HCIS architecture and KPI metrics as the strategic foundation for the company's digitalization roadmap.
- Designing effective business workflows and visual communication to improve coordination efficiency among stakeholders.

Data Analyst Intern **July – August 2023**
Internship, PT. United Tractors

- Built an interactive dashboard in Looker Studio for real-time data visualization to support managerial decision-making.
- Optimizing database management using Google Spreadsheets to ensure a clean and consistent data input structure.
- Developed an AppSheet-based field assessment application to digitize the monitoring of mining operations.
